

In downtown Oklahoma City there are thousand of miles
of underground utilities buried right under your feet

There are miles and miles of underground utilities
throughout the state of Oklahoma

Start every digging project, big or small, with a call to OKIE811

Be sure to only dig with hand tools within
24 inches of the underground utility

After contacting OKIE811 remember to always
wait the required time before digging

You can help keep yourself safe and protect underground utilities.

Always contact OKIE811 before you dig
