## Annual Report 2024

Our ticket volume was relatively flat throughout most of 2024 but we ended the year with an increase of 3.8% over 2023. We did have a very productive year with the implementation of 40 major accomplishments and process improvements. Many of these projects were focused on automating our ticket management processes while ensuring quality data is being received on each locate request.

We also implement necessary changes to be compliant with changes to the Oklahoma Underground Facilities Damage Prevention Act. Changes included a new ticket for "pre-excavation meeting requests" and new processes for "watch and protect" positive responses.

The Damage Prevention Coordinating Council (DPCC) has continued meeting and discussing excavation related issues in Oklahoma. This council is made up of stakeholders from across our industry including contractors, professional excavators, line locators, underground facility operators, relevant industry associations, and of course, OKIE811. Though the council did not identify any legislative needs for 2025, there have been a few bills introduced by others that we will likely be involved with (SB264, SB345 & SB355).

We are excited to continue our focus on quality services, process improvements, and on helping Oklahoma be the safest place to dig. I thank our industry partners for working with us to make this possible.

Susan Bohl, Executive Director OKIE811

# Providing Quality Underground Damage Prevention Services

#### **OKIE811 Board of Directors for 2024**

Chris Breeding – President COX Comm.

Tim Young – Vice-President City of El Reno

Teri Anderson – Secretary ONEOK
Clint Mobley – Treasurer OEC

Sobronia Conley – Director AEP-PSO
Drew Miller – Director OneGas/ONG

 $\begin{array}{ll} Greg\ Clarkson-Director & AT\&T \\ Chad\ Guthrie-Director & OG\&E \end{array}$ 

Tux Jackson – Director Plains Pipeline Michael Humphries – Director City of Enid

Nicole Rhodes – Ex-Officio Center Phase Energy

 $\begin{array}{ll} Brandon \ Renfro-Ex-Officio & Gridhawk \\ Jim \ Proszek-Advisor & Hall \ Estill \end{array}$

#### **OKIE811 OPERATIONS**

We processed 1,162,949 in-bound locate request for excavation happening in Oklahoma. We had 3 record months and had (6) 6,000+ ticket days and (60) 5,000+ ticket days. We're continuing to see a decrease in the average number of outbound notices which went from 6.09 in 2021, to 5.68 in 2022, to 5.59 in 2023 and now 5.54 in 2024. This decrease is due to refined service area data and reduced buffers around service areas that were submitted by Underground Facility Operators.

We also successfully completed many key accomplishments in 2024 that have helped advance our services to the industry:

- 98.5% voluntary employee retention.
- 5.9% Increase in Directly Submitted Tickets by Excavators 78.2% of our tickets are submitted electronically with 21.8% being called in via phone.
- We have \$3,886,848 in investments, which is equivalent to almost a 7-month operating reserve.
- We upgraded our ticket management software, GeoCall, to V3.9 and portal functionality provides mobile friendly features and easier entry of tickets via mobile devices.
- We implemented a new phone system in our contact center (Content Guru STORM) and in our corporate department (MS-TEAMS).
- We now have screen recording which helps us support our agents and identify issues or redundancies that may exist.
- We now provide Public Dashboards for active tickets and damage reports.
- We offer a new Chatbot service on OKIE811.org to answer common questions.
- We expanded our Excavator Education through partnerships with other organizations.

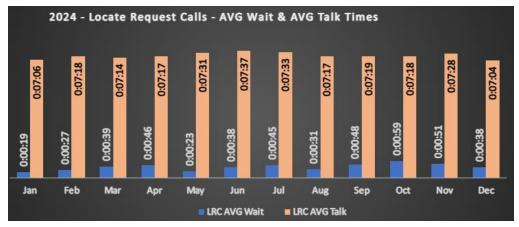

As a part of our mission to provide quality damage prevention services, we continuously focus on the quality of the ticket (i.e., the accuracy of the information, the correct area marked, etc.). Our Quality Assurance team audits a large percentage of the tickets that are submitted by our Damage Prevention Agents as well as tickets directly submitted by Excavators. We are excited to report that 99.2% of the tickets that are processed by OKIE811 are "safe tickets" and 97.2% submitted by direct entry excavators are "safe tickets".

We achieved 91% of our annual KPI Goals (Key Performance Indicators) in 2024 and are continuously looking for ways to improve our processes and utilize our resources to the fullest.

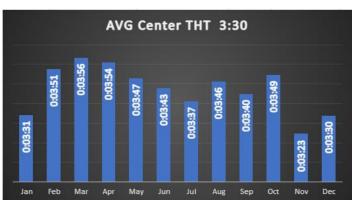

Quarterly Measurement:	GOAL QTRLY	1st Qtr / Bi- Annual Results	QTR 2 ACTUAL	3rd Qtr / Bi- Annual Results	QTR 4 ACTUAL	AVERAGE

#### **OKIE811 MEMBERSHIP**

In 2024 we saw a slight increase in our General membership and a growth in our Sustaining membership. Sustaining members are organizations that are involved industry stakeholders that want to be a part of our activities and education while General members are those that own and operate underground facilities.

For a copy of the membership by-laws, you can find them at: https://okie811.org/wp-content/uploads/2023/03/OKIE811-ByLaws-Amended-032223.pdf.

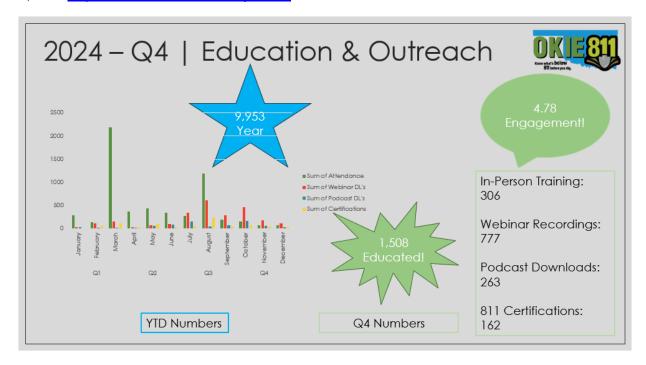

#### **OKIE811 EDUCATION & OUTREACH**

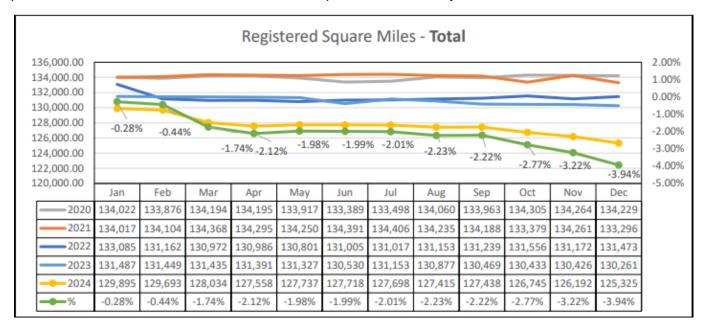

In 2024 we had our annual Safety Expo in-person and had over 200 people in attendance. Our 2025 Expo is happening March 26-27 in Oklahoma City. For more information on our Excavator Safety Program, visit <a href="https://okexcavationsafety.com/">https://okexcavationsafety.com/</a>.

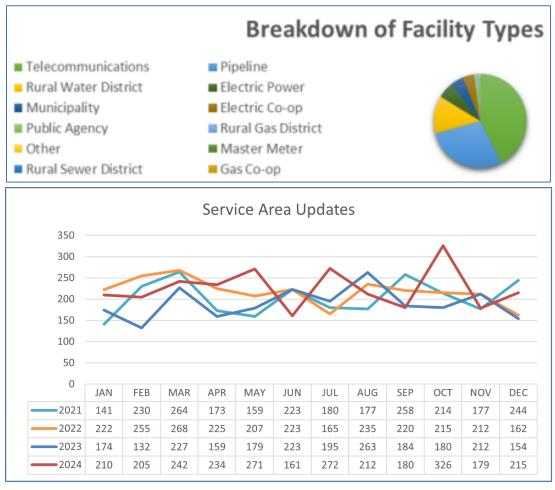

Page 7 of 43

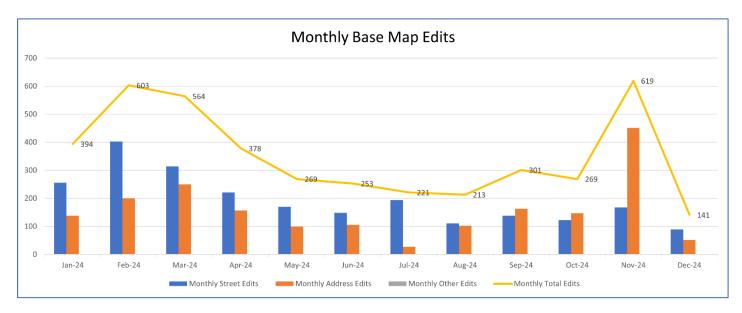

#### **OKIE811 GIS SERVICES**

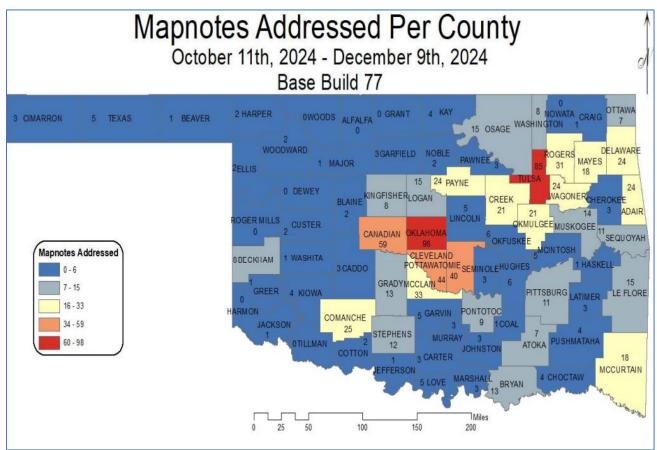

In 2024, OKIE811 had a total of 125,326 registered square miles of underground facilities. We experienced a -3.94 decrease, or 4,936 total square miles since year-end 2023.

Our GIS Department also manages our basemaps that are used within our Ticket Management application. It's important that these basemaps are updated so that dig sites can be determined and mapped accordingly. When our agents identify a discrepancy in the information on a ticket versus what the map shows, they create "map notes". Our GIS team reviews the map notes and makes the necessary updates to the base maps. This is done throughout the calendar year.

As we look ahead to 2025, Oklahoma is poised for significant growth and exciting developments across various sectors. From infrastructure improvements to innovations in technology, here's a glimpse of what's coming for the state in the year ahead.

Infrastructure and Transportation Investments
 Oklahoma is set to see major investments in
 transportation and infrastructure projects

throughout 2025. The state's ongoing road improvements, including expansions to major highways and the enhancement of urban transportation systems, will improve connectivity and reduce congestion. These efforts are expected to benefit both commuters and businesses, boosting Oklahoma's economic growth.

2. Energy and Sustainability Initiatives With a strong focus on renewable energy, 2025 promises to be a milestone year for Oklahoma's energy sector. The state has made great strides in wind energy, and this momentum is set to continue with new renewable energy projects and advancements in solar energy technology. These initiatives will not only help meet energy demands but also contribute to sustainability efforts across the state.

At OKIE811 we expect our ticket volume to increase by at least 5% over 2024 when we processed 1,162,949 inbound locate requests. We also expect underground facility operators to make further improvements to their mapping of underground infrastructure which will enable them to receive more refined and more relevant locate notices.

We plan to implement more AI tools across the organization which will enable more automation of our services. In turn, we expect to reprovision operating funds to help offset the cost of these new tools and services.

In our Excavator Education and Outreach, we will be updating our 811-certification platform and curriculum. And for Member Services, we plan to have a new LMS offering for facility operators to help educate them on their 811 membership and service offerings.

In summary, 2025 holds great promise with advancements across multiple sectors driving growth, innovation, and community engagement. The year ahead looks bright, with ongoing efforts to improve infrastructure, sustainability, and education shaping the future of our state and of OKIE811.
