

Annual Report 2025

Executive Director's Message

2025 was a year of extraordinary growth and momentum for OKIE811. Inbound locate request volume increased by 14% over 2024, and we achieved record ticket volumes in 11 of 12 months. This is a testament to both Oklahoma's strong construction activity and the trust placed in our services.

Equally important, we delivered 37 major operational accomplishments, including the deployment of new AI-powered tools. These initiatives focused on automating and validating ticket management processes while improving ticket quality immediately upon notification to underground facility operators... strengthening both efficiency and safety across the system.

We also successfully implemented updates required by changes to the Oklahoma Underground Facilities Damage Prevention Act, including the introduction of a new ticket type for pre-excavation meeting requests and new processes supporting watch-and-protect positive responses.

The Damage Prevention Coordinating Council (DPCC) continued its important work addressing excavation-related challenges statewide. The council, representing contractors, professional excavators, locators, facility operators, industry associations, and OKIE811, advanced discussions on ticket scope parameters and determined that no legislative changes are needed for 2026.

As we look ahead, we remain committed to service excellence, thoughtful use of AI, and continuous improvement. All of this in support of our shared goal of making Oklahoma the safest place to dig.

Thank you to our industry partners for your collaboration and trust.

Susan Bohl, Executive Director
OKIE811

Providing Quality Underground Damage Prevention Services

OKIE811 Board of Directors for 2025

Tim Young – President	City of El Reno
Chad Guthrie – Vice-President	OG&E
Chris Breeding – Secretary	COX Comm.
Clint Mobley – Treasurer	OEC
Sobronia Conley – Director	AEP-PSO
Drew Miller – Director	OneGas/ONG
Greg Clarkson – Director	AT&T

OKIE811 OPERATIONS

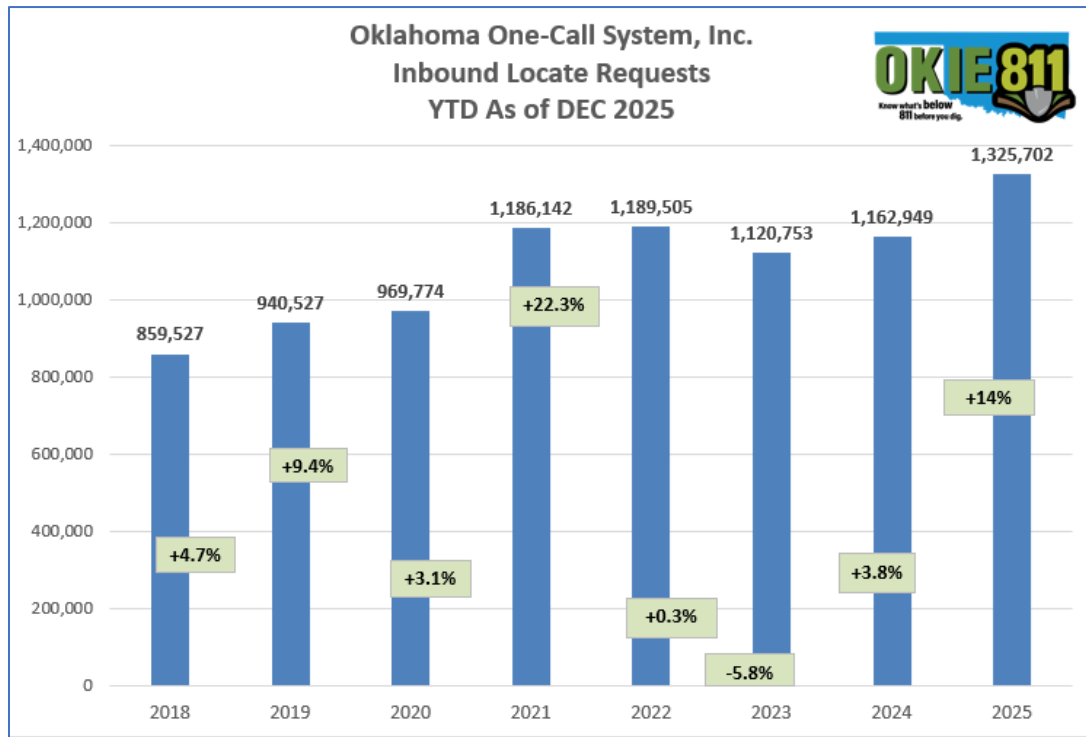

In 2025, OKIE811 processed **1,325,702 inbound locate requests** for excavation activity across Oklahoma... achieving **11 record-breaking months**. We also reached two historic milestones: our first **8,000+ ticket day** on December 29 (8,294 tickets) and our first **7,000+ ticket day** on September 8 (7,483 tickets). At the same time, we continued to improve operational efficiency.

The average number of outbound notifications going to underground facility operators declined from **5.59 in 2023** and **5.54 in 2024** to **5.38 in 2025**, driven largely by the reduction of the dig site buffer from 150 feet to 50 feet in the third quarter.

We also delivered several major accomplishments that strengthened our organization and enhanced service to the industry:

- Streamlined staffing by reducing four full-time positions while adding new roles in GIS and Education & Outreach and transitioning two contact center agents to the newly formed QA & AI Support Team.
- Achieved **94.5% voluntary employee retention**, reflecting strong organizational stability and engagement.
- Increased directly submitted tickets by excavators by **9.8%** - with **79.5%** of tickets now submitted electronically and only **20.5%** received by phone.
- Maintained **\$4,052,067 in investments**, equivalent to a **seven-month operating reserve**, supporting long-term financial resilience.
- Expanded system validations to catch errors prior to ticket submission and launched **SKAPA**, a new Quality Assurance tool that enables rapid post-notification ticket corrections.
- Delivered Safe Digging training and education to **more than 9,000 professional excavators and contractors** across Oklahoma.

Together, these results reflect OKIE811's continued commitment to operational excellence, innovation, and industry partnership in support of safer digging statewide.

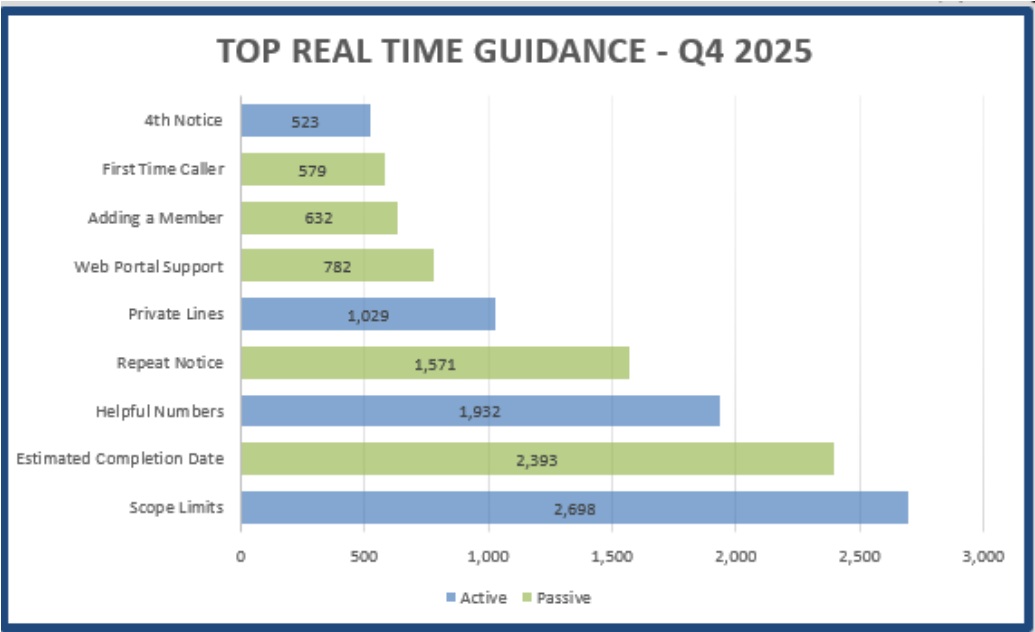

As part of our mission to deliver high-quality damage prevention services, we remain focused on ensuring every ticket is accurate, complete, and properly scoped. In the fourth quarter, our Quality Assurance and AI team implemented a new AI-powered tool, **SKAPA**, which now reviews 100% of tickets submitted by both Damage Prevention Agents and excavators. As a result, we achieved a **99.7% ticket quality rate** and were able to identify and resolve safety-related errors within **one business day** of ticket submission.

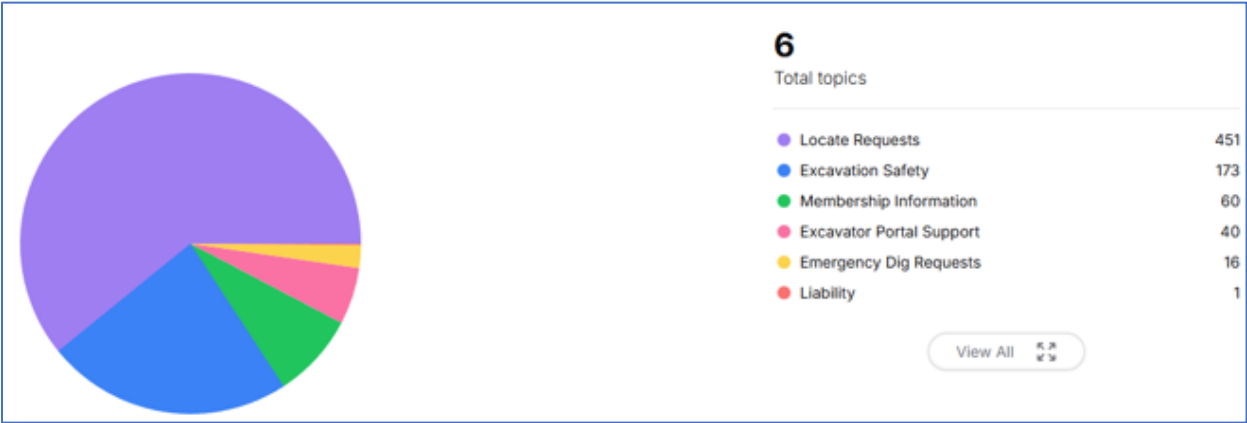

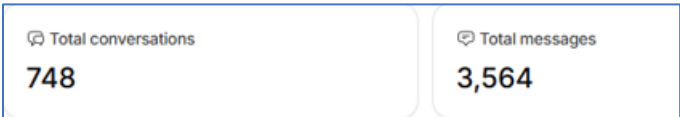

In 2025, we achieved **90% of our annual Key Performance Indicator (KPI) goals** and continue to pursue new ways to strengthen our processes, maximize resources, and deliver even greater value to our members.

Quarterly Measurement:	GOAL QTRLY	1st Qtr / Bi-Annual Results	QTR 2 ACTUAL	3rd Qtr / Bi-Annual Results	QTR 4 ACTUAL	ANNUAL TOTAL
SAFETY: 40%						
Safe Tickets - Agent Damage Prevention	99.1%	99.8%	99.7%	99.8%	99.9%	99.8%
Safe Tickets - DS Excavators & TX811 DP	99.1%	99.6%	99.7%	99.7%	99.6%	99.6%
Program Delivery - # of People Educated	2,250	2,013	3,979	2,162	1,666	9,820
Program Impact (Satisfaction w/Educ)	4.50	4.68	4.93	4.90	4.85	4.84
SERVICE & EFFICIENCY: 30%						
Service Uptime/Availability	99.97%	99.99%	99.99%	99.97%	99.91%	99.97%
Sustainable Improvements/Major Accmpls	8	7	9	10	11	37
*Manage Expense at or below Budget	1,719,000	1,864,251	1,462,308	1,549,281	1,686,446	6,562,285
SATISFACTION: 30%						
Employee Retention Rate	94.0%	100.0%	98.1%	98.1%	94.3%	94.3%
Excavator Satisfaction (scale 1-5)	4.25	4.21		4.22		4.22

*Employee Engagement (scale 0-6)	5.00	5.45		5.30		5.38

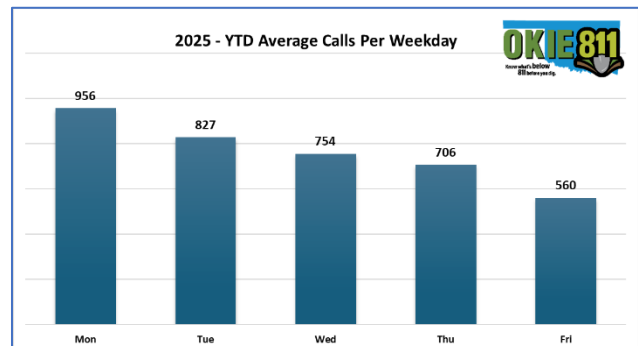

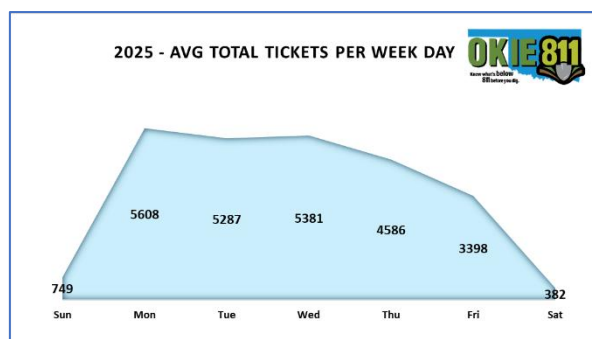

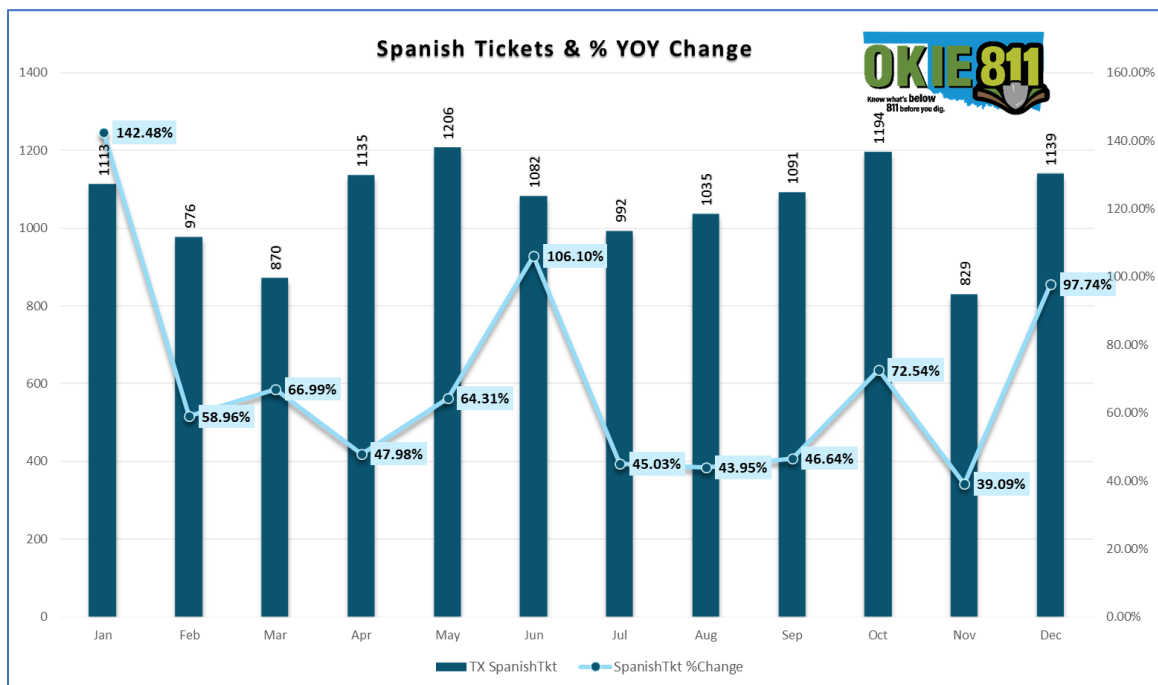

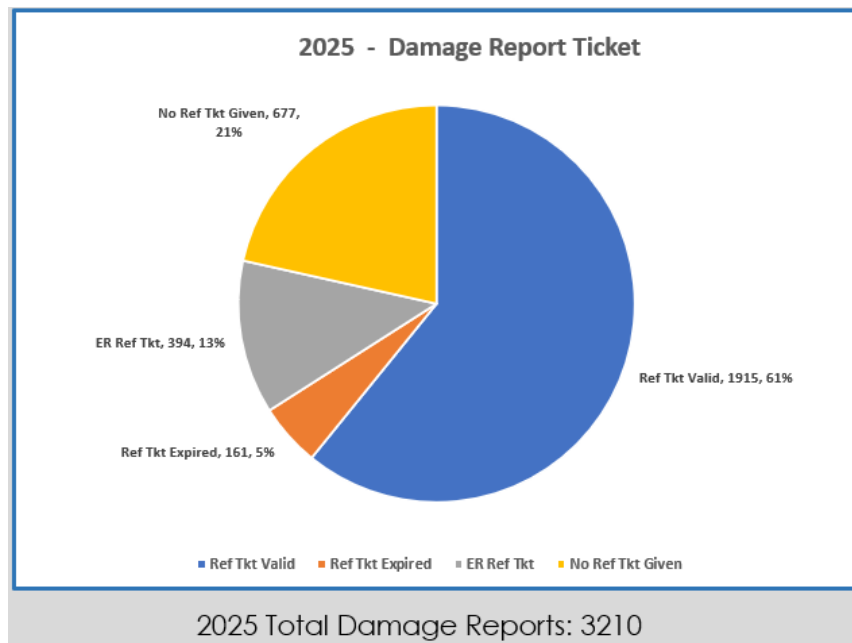

In the Contact Center, we implemented a new AI tool called **Lively**, which serves as a virtual assistant for agents. During the fourth quarter, live call transcription supported agents by helping identify potential errors and recall key discussion points. The tool also generated post-call summaries and analyzed caller sentiment, enabling improved follow-up and service quality. In addition, Lively’s real-time agent guidance provided timely prompts, reminders, and relevant knowledge base articles based on live customer conversations, enhancing both accuracy and efficiency.

We also launched a new AI-powered chatbot on our primary website to better support visitors. This tool delivers faster, more accurate assistance by streamlining information delivery and enhancing the overall user experience. Through customized training specific to OKIE811 and the damage prevention industry, the chatbot now provides instant responses to common questions and redirects inquiries that would otherwise reach the Contact Center. This has allowed our agents to focus more time on assisting customers with locate requests and complex service needs.

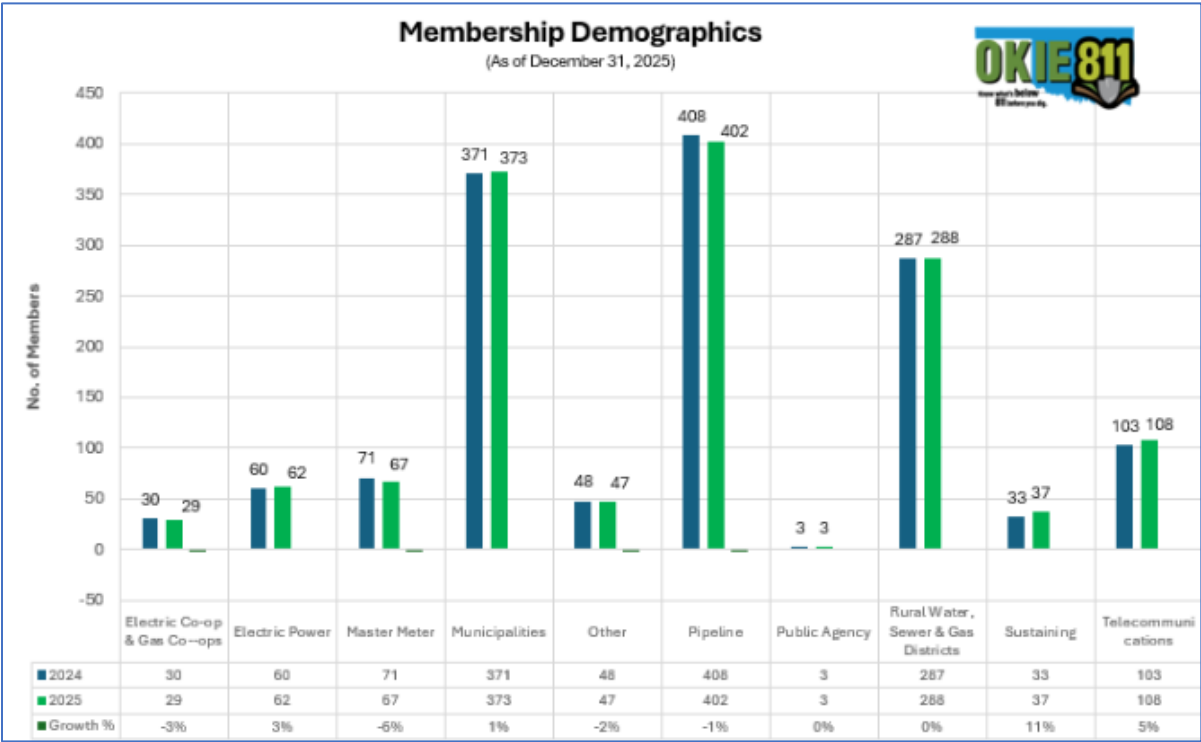

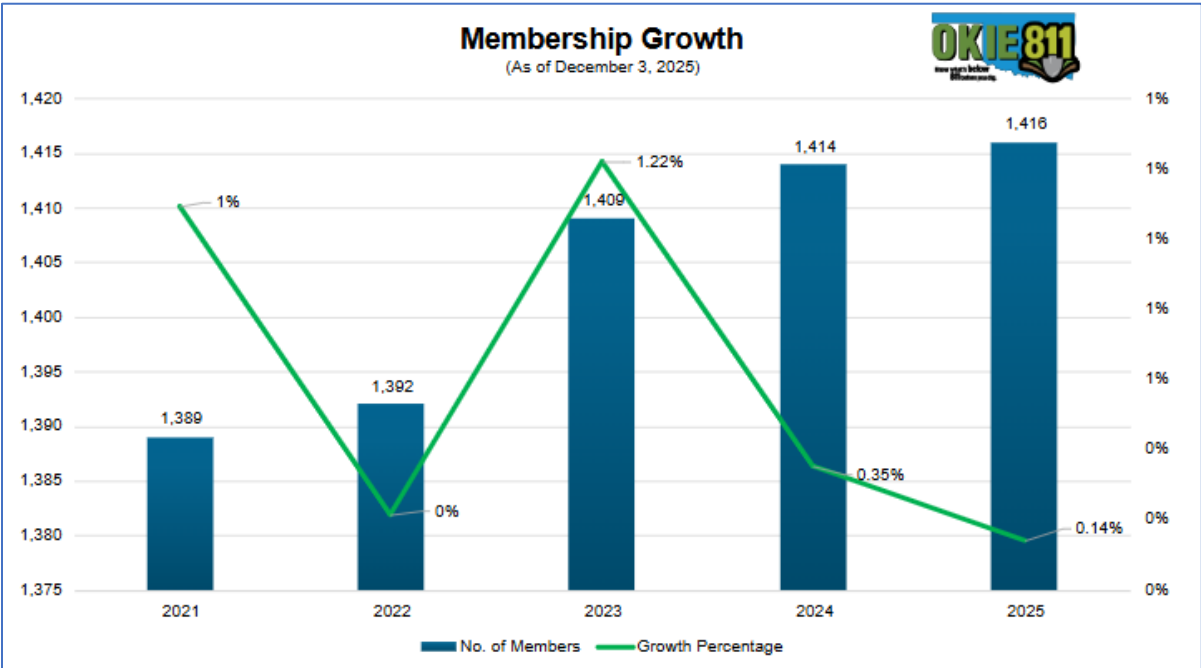

Additional Reports of Interest for 2025:

OKIE811 MEMBERSHIP

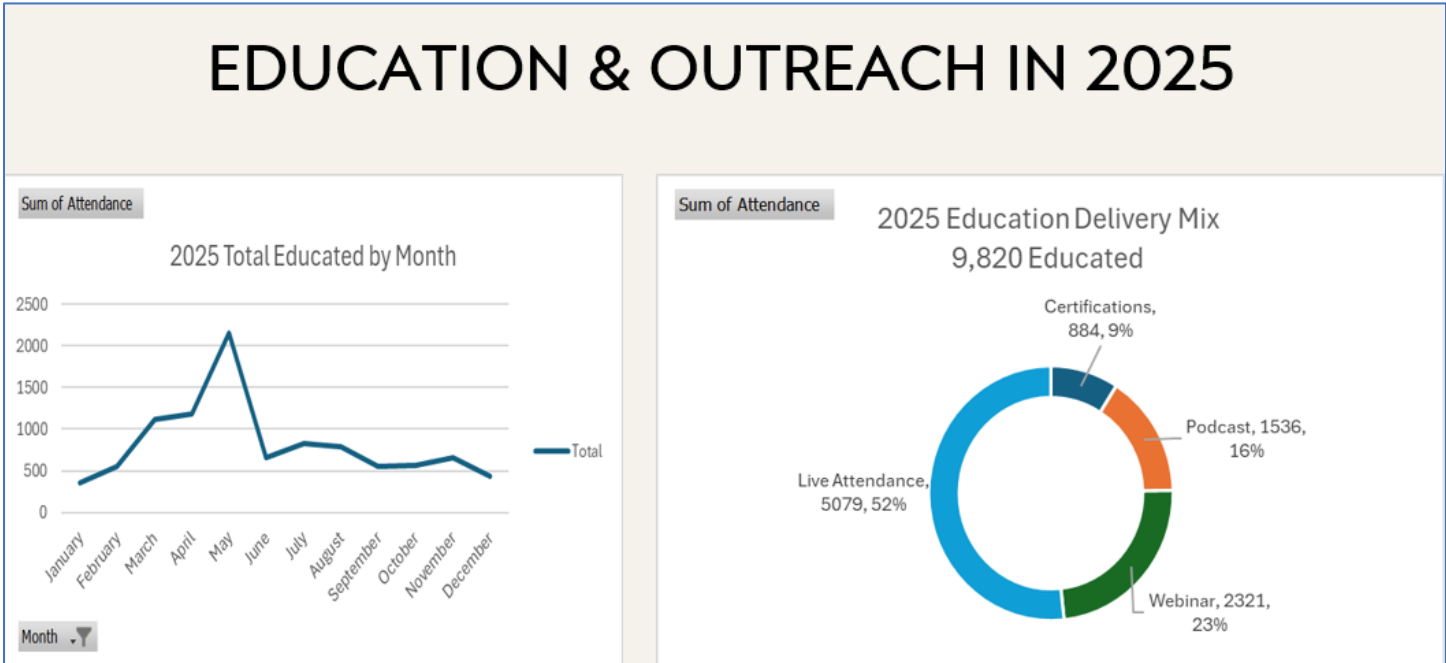

In 2025 we added two additional General memberships and four additional Sustaining memberships. Sustaining members are organizations that are industry stakeholders who want to be a part of our activities and education while General members are those that own and operate underground facilities.

For a copy of the membership by-laws, you can find them at:
<https://okie811.org/wp-content/uploads/2023/03/OKIE811-ByLaws-Amended-032223.pdf>.

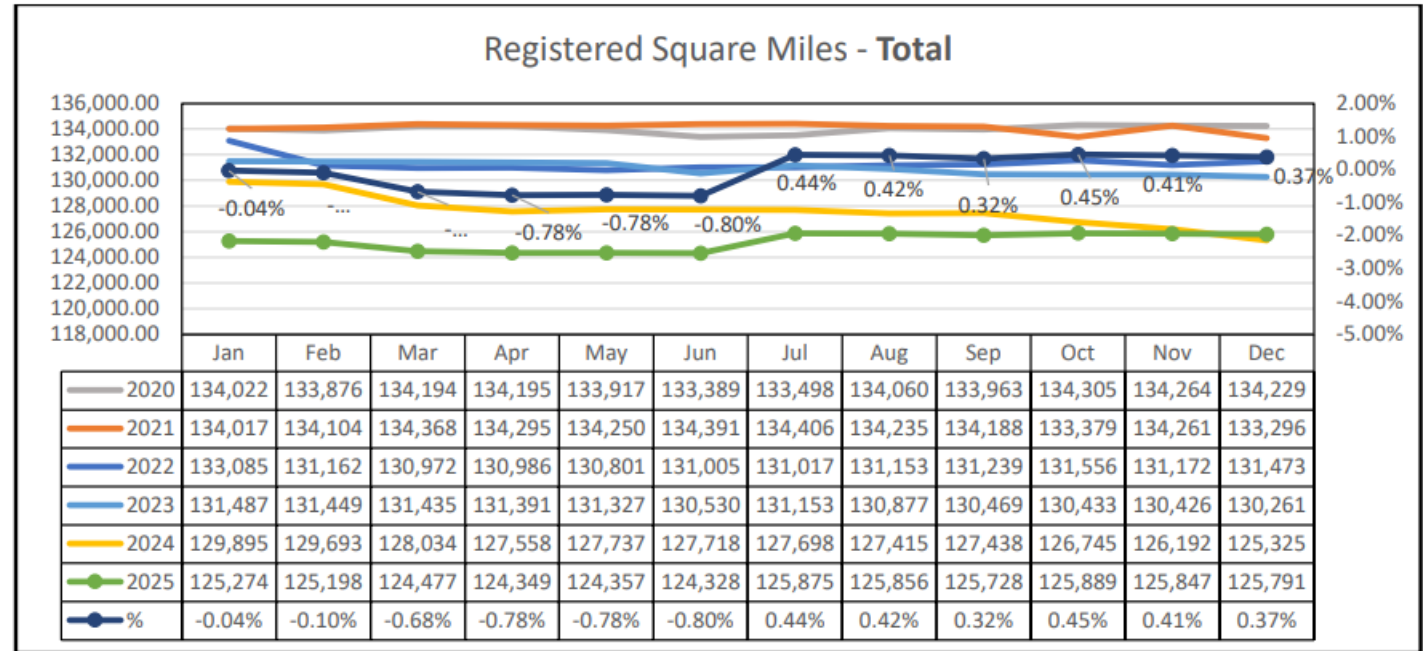

OKIE811 EDUCATION & OUTREACH

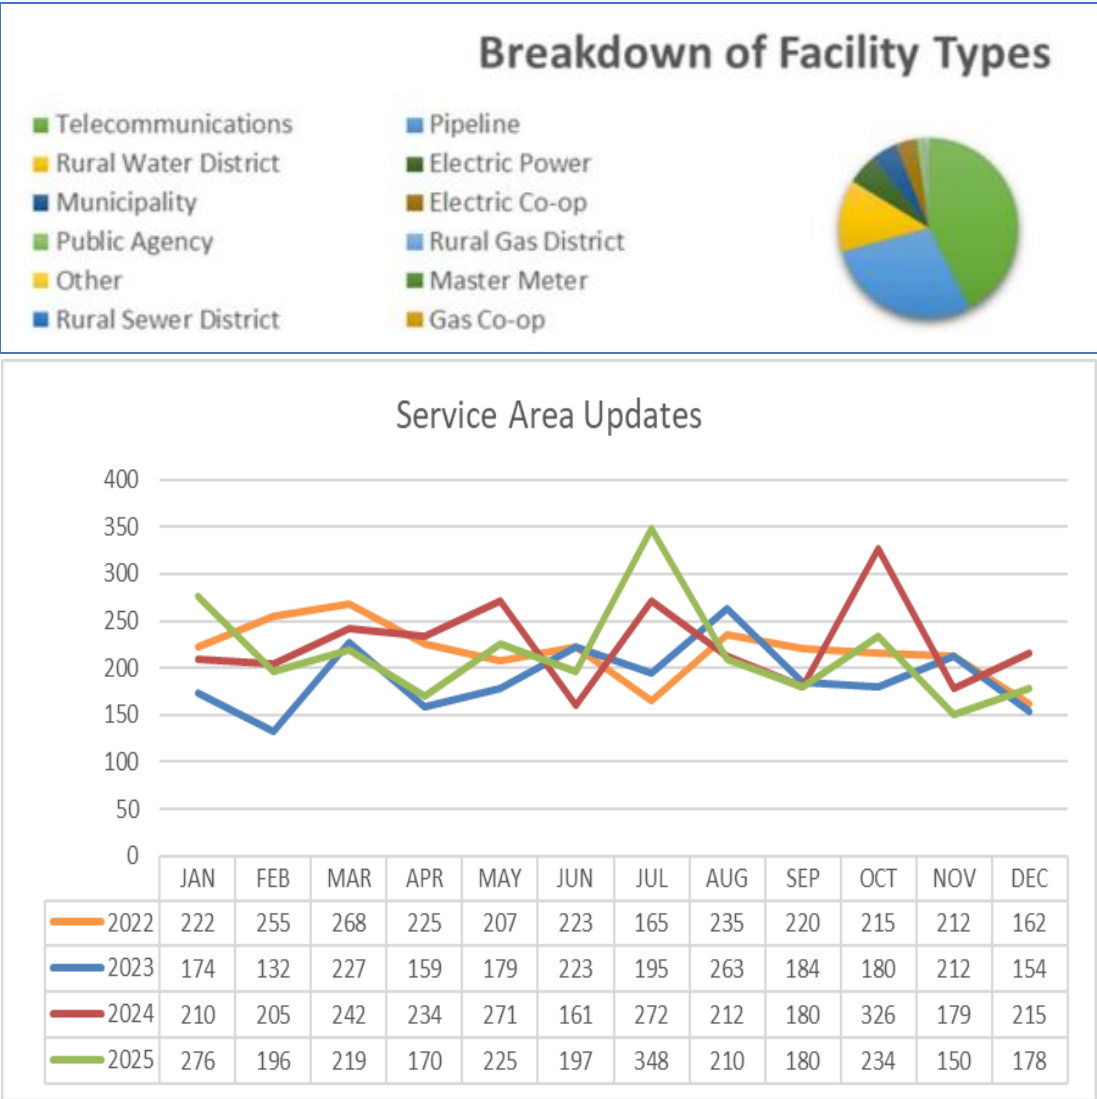

In 2025 we had our annual Safety Expo in-person and had over 200 people in attendance. Our 2026 Expo is happening April 1st and 2nd in Oklahoma City. For more information on our Excavator Safety Program, visit <https://okexcavationsafety.com/>.

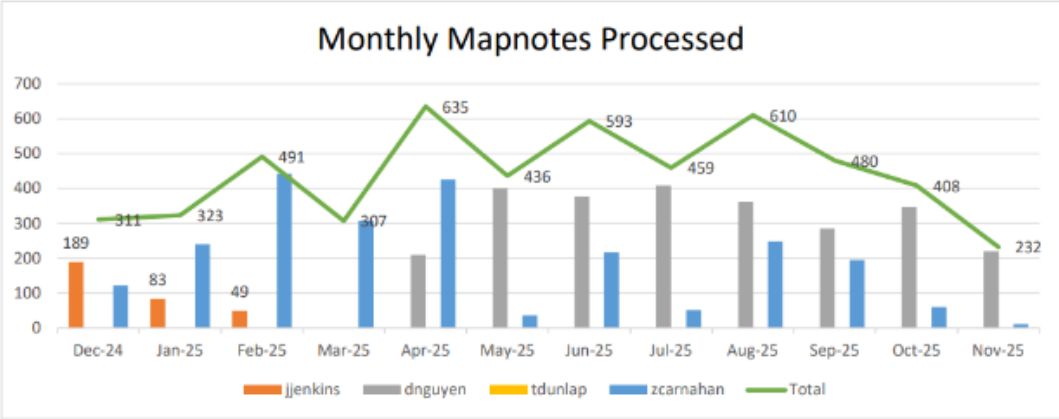

OKIE811 GIS SERVICES

In 2025, OKIE811 had a total of 125,791 registered square miles of underground facilities. We experienced a -0.37% decrease, or 322 total square miles year to date.

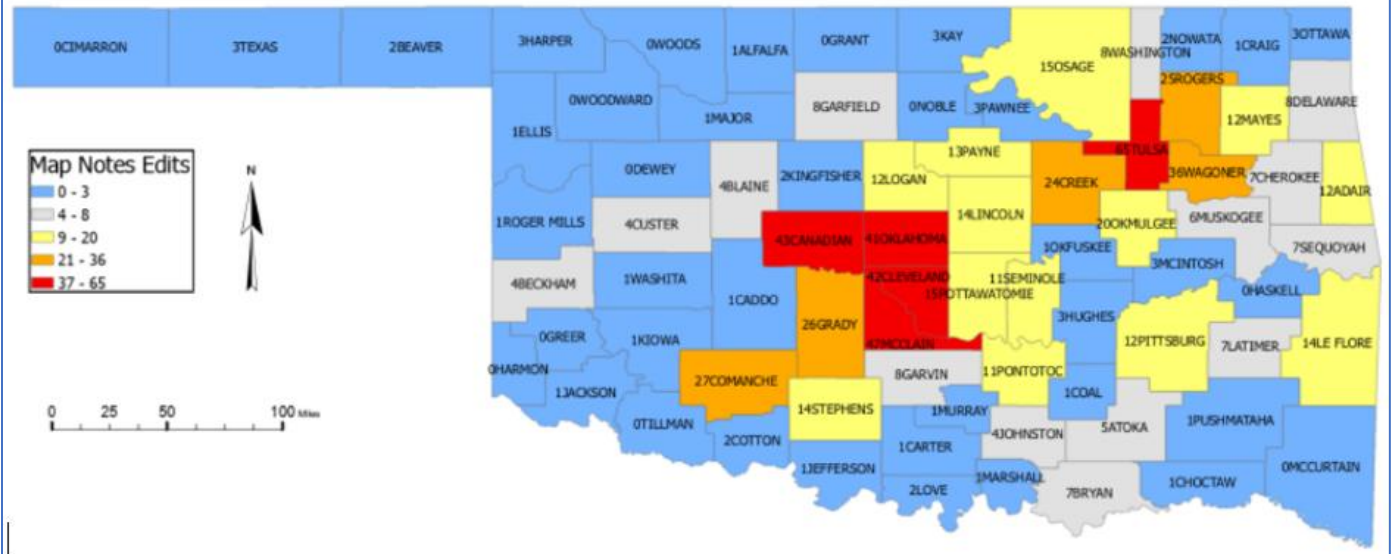

Our GIS Department also manages our basemaps that are used within our Ticket Management application. It's important that these basemaps are updated so that dig sites can be determined and mapped accordingly. When our agents identify a discrepancy in the information on a ticket versus what the map shows, they create "map notes". Our GIS team reviews the map notes and makes the necessary updates to the base maps. This is done throughout the calendar year.

Base Build 77

Service Area Updates

As we look ahead to 2026, Oklahoma continues to be poised for significant growth and exciting developments across the various sections we serve. From infrastructure improvements to innovations in technology, here's a glimpse of what's coming for the state in the year ahead.

1. Growth in Technology & Data Integration

- a. Advances in utility locating technologies including AI, GIS integration, cloud-based management systems, and sophisticated ticket management tools. These are expected to continue shaping how locates are managed, tracked, and analyzed. These technologies aim to improve accuracy, efficiency, and real-time collaboration among utilities and excavators.

2. Greater Adoption of AI and Predictive Tools

- a. Across the broader utilities and underground infrastructure sector, AI and data analytics are projected to become more embedded in workflows. From predictive asset management to real-time analysis and field operations support. While not specific to 811 alone, these digital trends influence how excavation and locate data is managed and utilized.

3. Rising Excavation and Infrastructure Activity

- a. Trends in Oklahoma show that locate requests across several key work types such as fiber installations, water lines, and road construction, have risen significantly, reflecting growth in infrastructure work and the expanding demand for 811 services. This growth trajectory is expected to continue as large-scale projects and utility enhancements progress.

At OKIE811, we anticipate ticket volume to grow by 5% to 8% over 2025, reflecting continued infrastructure development across Oklahoma. At the same time, underground facility operators are expected to make further advancements in mapping accuracy, enabling more targeted, relevant, and actionable locate notifications that improve both safety and efficiency in the field.

We will continue expanding the use of AI technologies across the organization to increase automation, enhance service quality, and streamline operations. These efficiencies will allow us to strategically reinvest operating funds to help offset the cost of new tools while maximizing value for our membership.

In early 2026, we will launch a refreshed and modernized 811 certification program and curriculum. Member Services will also introduce a new learning management system (LMS) for facility operators, strengthening education around 811 responsibilities, services, and best practices.

Looking ahead, 2026 holds significant promise as innovation, infrastructure investment, and education converge to strengthen damage prevention efforts statewide. With these advancements, OKIE811 is well-positioned to continue delivering exceptional service while helping build a safer, more connected Oklahoma.
